EMPEROR YET CLOTHED WITH ALL AUTHORITY

(By Associated Press.)

ST. PETERSBURG, November 2-12:10

P. M.—The imperial decree creating the calinet ministers under the imperial manifeste to granting a constitution to flussin, was gazetted this morning, and has already aroused criticism, as the chinery is extremely complicated and smacks of the old-ifashioned bureautate regime. The relations of the cabinit to the council of the empire, or upper hamber and the imperial douma, or popular chamber, are not clear, because the rowers of these bodies are yet to be defined under the manifesto.

Two features are especially unsatisfactory. While the cabinet has no authority of the legislative bodies, no mensure of "general importance" can be included into the chambers without the sanction of the cabinet, and another prevision requires that when the cabinet is not unanimous the prier must go to the interest and requires that when the cabinet is

ot unanimous the prier must go to nanimous the prier must go to the for and receive instructions. This seem to make the final authority

would seem to make the final authority go back to the Emperor.

Moreover, all questions affecting the imperial court and domains, the army and navy and foreign affairs, are specifically excluded from the competency of the cabinet without direct imperial authority. By implication these great questions, in which the nation is vatally interested, are also outside the competency of the legislature, and therefore are bound to prove unsatisfactory to the representatives of the people when they assemble.

ROPE THAT BOUND PIERSON IS FOUND

Bloody Evidence Liter--ally Dug Up in Sensational Case.

(By Associated Press.)
MOUNT VERNON, OHIO, November 2.-Buried beneath a culvert, 200 feet from the spot where Stuart Pierson, the Kenyon College student was ground to death by a train, the authorities have found three lengths of bloodstained rope and a wad of absorbent cotton, also suturated with blood.

County Prosecutor Stillwell expresses the firm belief that the boy was chloroformed, the cotton' saturated, bound across his face, and that then he was tied across the tracks as a part of his initiation into a college fraterally. The authorities believe that the cotton was removed later and the boy left stupe-

\$10,000 IN DAMAGES FOR LOSS OF HIS HAND

(Special to The Times-Dispatch.) RALEIGH, N. C., November 2,-At 11 o'clock to-night the jury in the case of Mary Stewart, administratrix of S. T. Stewart, vs. the Seaboard Air Line returned a verdet for 10,000 damages for the killing of Engineer S. T. Stewart in a collision near Southern Pines two years ago. This wax the second trial, the first having resulted in a non-suit by the trial

judge.

The plaintiff appealed and secured a new trial on the ground that the case should have gone to the jury to pass on the question of contributory negligence on the part of the Seaboard. The contention of the railroad is that Stewart disregarded orders and ran his engine past the meeting place of the train ahead of him. On the other hand the plaintiff contended that even if this was the case there was contributory negligence in that the railroad was not using the block system and should have had conductor and flagman with the engineer who was running an engine light from Raleigh to Hamlet The Seaboard will appeal from this verdict. from this yerdict.

CLEAR WATER TO BE A FACT

Chairman Jones Soon to Make An Encouraging Report to the Council.

Manchester Bureau, Times-Dispatch, No. 1102 Hull Street. }
The police authorities of Manchester were given a tip last night at about half-past 10 that may lead to the apprehension and arrest of William Lewis, alias William Williams, alias William Epps, colored, who escaped from the penitentary yesterday morning. The dispatcher at Bellwood, on the Man-

chester-Petersburg interurban light, saying that a negro, correspondng in description to the escaped convict spurred his foaming horse and continued his headlong flight towards Petersburg his headlong flight towards Petershurs. Sergeant Wright, immediately upon receiving the information, 'phoned to the police authorities at Petershurg to be on the lookout for the fleeing negro, and if the case warranted it, to make an arrest and hold the man for further developments. Since the negro escaped early yesterday morning nothing has been heard of him, and it is thought highly probable that the rider who passed Bellwood last night is the escaped convict.

Bazaar Goes Well.

The bazaar given under the auspices of the ladies of West End M. E. Church, which is in progress in the Masonic Temple, had the largest crowd last night since its opening. The large hall was filled with moving people, and the bargain icounters in drefrashment stalls were thronged with buyers. Money quickly changed hands, and the coffers of the society, which are being filled for the benefit of the parsonage fund, were greatly helped. The programme was rendered exceptionally well, and nuge enjoyment was manifested in the audience, which listened with all, their ears to the soles, duets, rectations, and the selections of the Eagle Band.

To Grade Street.

Of the four committees which met last night, two, the Buildings and Land Com mittee and the Cemetery Committee failed of a quorum. The business accomplished by the Street Committee was in he main of a routine nature. On motion t was decided to grade McDonough Street from Tenth to Eleventh Street on the south side. This motion was made partly on the request of Mr. Hayes, who has some valuable property at this point. As the owners of the quarry at the end of Cowardin. Avenue have pulled you stakes and departed, leaving the quarry in a very dangerous condition, Mr. J. W. Moore moved that the city attorney be instructed to look into the matter and

make a report.
The Fire Committee met and granted several building permits. This was all the business transacted.

Clear Water to Be a Fact.

It was stated last night by Mr. C. C. Jones, chairman of the Cear Water Committee, that the committee, had been holding meetings almost every night for the past week, and that the matter had arrived at such a stage that the com-mittee would soon be ready to make a report to the Council. It seems that the members of this important committee have at last hit upon a plan which will for once and all settle the clear water question for Manchester. The committee but it is understood on good authority, that it will not long be delayed. Clear water, for which Marchesterians have so long been struggling, will mean a sreat bonus for the city, and the citzens will be greatly relieved to know that at last clear water is practically promised. The committee worked faithfully and has sought more strenuously than any other committee that has yet been appointed to solve the problem with which the city has long been confronted. but it is understood on good authority,

Hear No More of Annexation.

One of the most influerial members of the Council stated last night that nothing had been heard for some time of the Annexation Committee, and that the citizens of Manchester were becoming anxious to know what had come of the allimportant question. It has been some time since a meeting was held, and it looks as if the matter were to be related to oblivion. The last meeting was adjourned, subject to the call of the cialirman of the joint committees, by James E. Cannon, of Richmond. No call has yet been issued for another meeting, and the people are beginning to wonder what has become of the proposition.

They succeeded in dropping the satchel which contained the girl's head and the suit case overhoard from a ferry unobserved. Then they returned and got another suit case, which was also dropped from a ferry. Howard was paid \$9), Crawford withholding \$10.

Two days later Howard was startled when he heard newsboys calling out about the gruesome find of a dismembered body in a suit case, and immediately he went to the hospital and told Crawford that he was seared and wanted to leave town. Crawford gave him some more money, he says, and told him that he intended to get out, too, and that he, would accompany him to New York.

On September 22d they came to New York. Shortly afterwards the police of this city received a message from the Boston anthorities, asking them to look out for Crawford, who, it was believed, could throw some light on the mystery, it was by constantly watching the New York theatrical agencies that the two men now in custody were arrested.

ANNOUNCES HER JOY AT HUSBAND'S DEATH

Wife Tells Newspapers She Will Not Mourn Man Who Died a Drunkard.

(Special to The Times-Dispatch.) After years of violent abuse of his family, consisting of a wife and ten children, William Clark died here in a horrible attack of delirium tremens. A news paper reporter called for particulars, and the widow sat down and penned the fol-lowing note, which she requested be given to the entire city press:

'In announcing the tleath of William Clark, please do not say that his family will deeply mourn.' For years he has been a husband and father only in name. For affection we have received in return only curses and blows. He has neither fed us nor clothed us. It is better for him that he is dead. It is better for us. Now that the long, dark chapter is ended, do not make us hypocrites by publishing that which is not true,'
